Summary

Shubham Singh, based in Chennai, Tamil Nadu, is a skilled Data Analyst with expertise in Database Management System, Data Analytics, OOPS, Data Structures, CSS, and HTML. He recently completed a project at Med Tour Easy (MTE), where he conducted in-depth analysis of death age differences between right-handers and left-handers. Shubham utilized advanced data analysis techniques to extract meaningful insights and presented his findings and recommendations to stakeholders. He demonstrated strong attention to detail and accuracy in data analysis, ensuring the reliability of the results. Shubham effectively communicated complex data concepts to non-technical team members and completed the project within the specified timeframe. He holds a certification from Med Tour Easy and achieved a GPA of 8.60 out of 10 in his primary school education at Army Public School, Ambala Cantt. Shubham's expertise in data analysis and his ability to contribute to informed decision-making processes make him a valuable asset in the field.
